Cross Country Champions!

Cross country is one of our schools most popular activities. On our cross country team we have many great runners. One of these runners is Elani Gikas. She came in second place, helping the girls win the division title!

Our other top runners are, Leah Bettencourt, Victoria Holleran, Emily Enes, Kate Keenan, Luke Bellicini, Jake Connolly, Collin Scarpola, and Kevin Rush.

MAP Testing

Erica Dellisola, Editor

The first round of Map Testing is coming to an end. We had a lot of technical difficulties with the iPads. It takes a while to set up, but if you listen and follow all of the instructions you will be all set.

The questions are chosen based on how you answered the previous questions. If you answer them correctly, the questions get harder. It is important to try your best because high schools look at these scores. Overall, I enjoyed MAP testing more than the old way of testing.

The Athletic Dance

Kiara Farrar, Events Reporter

The dance was really cool! Everyone had a very nice night. The music was groovy and fun to dance to. When the song Watch Me (Whip/Nae Nae) by Silentó came on, everyone came to dance floor! They also

played Bad Blood by Taylor Swift, Stitches by Shawn Mendes, had songs to slow dance to, and much more.

Next time I hope there are decorations because they didn't have any. The food and drinks were awesome and everyone enjoyed them.

Our Teacher of the Month!

Mrs. Young, Junior High Math

Erica Dellisola, Editor

This is Mrs. Young's first year teaching at St John's, but she has been a teacher for fifteen years. She teaches Math in the Junior High. She originally majored in business. When her son was in elementary school she began subbing and the rest is history. Her favorite subject in school has always been math. Her favorite thing about teaching is watching her children's education grow. A fun fact about Mrs. Young is that her favorite ice cream flavors are chocolate and chocolate chip.

Have you Ever Wanted to Create Your Own Video Game?

John Garuti and Leo Schroeder

Coding is a process that is used to create video games, computer software, and the apps you use on your phone! There is a website called Scratch (scratch.edu.mystuff) that gives you tutorials on how to code and let you create your own games for free. You can experiment with the different codes they give you or play games made by other players. Once you have learned how to code you can download Unity. This is more advanced and lets you create your own codes.

We are interested in starting a coding club if you would like to join please let John Garuti, Leo Schroeder, or Ms. Turner know.
